

Do you live with Myalgic Encephalomyelitis (ME)?

The Scottish Health Council is looking for people who are living with a diagnosis of ME to give their views about what support they would like to see in place.

These views will be used to help the Scottish Government to address particular gaps in knowledge and understanding about the care and support needs of those who are affected.

If you would like to be involved you can complete an online survey at

www.smartsurvey.co.uk/s/MyalgicEncephalomyelitisSurvey/

The survey closes on **17 March 2020**.

If you would prefer to take part in a telephone interview or participate in a face to face discussion please contact our local office using the details below.
