We are interested in speaking to people who cannot access regular mainstream transport. We are looking at supported transport in order to reduce isolation for the people who can't get out. We would like to develop new transport options and so want to know transport wise, What stops you getting out?

Q1 In terms of transport, what prevents you from getting out and about and doing the activities that you want to do? (eg. Struggle walking, too far to bus stop, I need assistance, unsteady on my feet, too expensive etc)

Q2 Is there anything that you are unable to do or attend because transport is a barrier? (eg. Socialising, events, activities, theatre, pub, appointments, visiting family or friends etc). Please tell us all that apply.

Q3 Do you struggle to get on/travel on the bus?

Yes No *Please give details*

Q4 If we were able to design alternative accessible transport solutions that fitted your needs, when would you want to use it? (eg. Friday morning, Sunday evening, no regular pattern etc)

Q6 Where do you live? (Community area or postcode).

Q5 What is your age?

If you would like to be added to the Older Peoples Services mailing list (50+) Please give us your details.
